📍 HOMETOWN : Villupuram

TECHNICAL SKILLS

- **Programming Languages**: Java, SQL
- **Frameworks**: Spring Boot, Spring MVC, Spring Data JPA
- **Microservices**: RESTful APIs, Spring Cloud
- **Database**: MySQL, PostgreSQL, MongoDB
- **Version Control**: Git, GitHub, Bitbucket
- **Tools & Technologies**: Docker, Jenkins, Maven, JIRA, Postman

CERTIFICATIONS

- **Oracle Certified Associate**, Java SE 8 Programmer – [2024]

PASSION

- **Full-stack Development**
  Eager to expand knowlegde in front-end frameworks to become a versatile full-stack developer.

WORK EXPERIENCE   1.6 YEARS

Backend Developer   Aug 2023 - Ongoing
Tata Consultancy Services   Chennai

- Developed APIs and backend functionalities for applications.
- Implemented REST microservices using Java and SpringBoot to facilitate the communication between various components of the application.
- Implemented DAOs, entities using Hibernate.
- Worked on OracleSQL database for SQL querying and also on NoSQL database such as MongoDB.
- Used Postman and swagger for testing and describing APIs.
- Build and deployed using Maven.
- Used Git as version control system.
- Performed Unit testing on all the classes using JUNIT Testing and also maintained Sonar codecoverage percentage as well.
- Deployed code and migrating pipeline through Jenkins.
- Used other Tools such as JIRA, Jenkins, Bitbucket, confluence etc.
- Worked on other Tasks like SBT issue fixing and BlackDuck issue for minimizing vulnerabilities.

EDUCATION

BTech Information Technology   Aug 2019 - May 2023
Sri Manakula Vinayagar Engineering College
